## How to Guide

1. Mat and layer item 2 on top of item 1. Set to one side.
2. Put down some of your first Distress Oxide on to a craft or glass mat. Spritz lightly with water, then press item 3 in the ink. Dry and repeat with 2 Oxide pads.
3. Stamp the door, from item 8, in black ink, on to the right hand side of your inked background.
4. Stamp the Lamp post, from item 7, in the black ink, next to the stamped door, slightly overlapping them. Set to one side.
5. Repeat step 2 on to item 4, drying in between each colour, as before.
6. Stamp the Flower from item 9, in the black ink, on to your inked piece of card (item 4). Use the outline die from item 9, to cut out the inked floral image.
7. Glue your die cut flower over the right hand side of your stamped Door (from step 4), with foam pads.
8. Die cut the Thank you, from item 10, in white and black cardstock. Glue the white die cut on top of the black, to create a drop shadow effect. Then glue over the die cut flower.
9. Glue your artwork to a card blank and then add some gems to embellish your card.
